## Project Overview

Project area  
**15.000** M<sup>2</sup>

The project was built on an area of 15.000 square meters in Ispartakula area.

The project consists of 145 apartments distributed in two buildings, and the project also includes commercial units where residents can meet their basic needs.

## Project

# Overview

In the project there is two types of apartments, 3+1 and 4+1, were offered to buyers.

Within the project there are social facilities as well as large areas of landscaped areas, walking paths, bike paths, football and basketball fields, multi-purpose hall, prayer room, toilets, fitness center, sauna and more.

Green spaces constitute 80% of the project.

The project is characterized by a number of limited apartments with large areas and open views, with a profitable return on investment.

The project is under construction and the delivery date is 12/2024.

## Project Site

The project is located at the intersection of transportation projects such as Canal Istanbul, the express train, the metro and the North Marmara Highway, an area that enjoys solid ground, clean air, lake and sea views, and has high investment potential.

The project is located on the European side of Istanbul in Bahcesehir district, the prestigious and developing face of Istanbul and the new attraction for real estate investments.

Bahcesehir district is famous for its rapid urban development and growing projects. It is also distinguished by its nature, parks, and green spaces.

## Project Site

The project is located near Canal Istanbul, highways, Ataturk International Airport, and Istanbul Third Airport.

The project is located in a lively area near the metro station, schools, universities, hospitals, public parks and other basic services.

The project is located on a public road that connects the main highways of Istanbul.

The metro station, which will be ready soon, will be at a walking distance from the project.
