Project Overview

Project area
20.350 M²

This project is being built by a well-known construction company in Turkey.

The land area of the project is 20.350 sqm, and the green area is 12.200 sqm.

The four-sectioned design of the project includes Biruni University Hospital, a shopping mall, medical apartments & residences, forming the new health, business & life centre of Istanbul.

Project Overview

With its easy-access location, indoor and outdoor shopping mall, 600+ hospital room capacity, ease of rental & investment opportunities, the project is at our valuable guest's service in Sefaköy.

Have a working and living space that suits your needs with 83 medical apartments and 342 residence options in this project.

In addition to the convenience of renting in the medical apartments, providing advantages with their proximity to the hospital & stand out with their investment opportunity.

Feel free to enjoy the comfortable and advantageous world of this project with residences with ongoing sales and possible to prefer for investment and workplace!

Project Overview

The project consists of 2 blocks with 6 floors, which include: 1+1 furnished apartments, the total number of apartments is 346 as follows: 99 medical apartments and 247 hotel apartments.

The number of shops in the project is 47, and the number of parking spaces in the closed garage is 363.

The services available within the project are security, reception services, cleaning services, and parking.

Project delivery date is 6/2024.

Project Site

The project located in the health, business and life center of Istanbul.

The project is located on the E5 highway that connects the two sides of Istanbul, and in front of the project are metrobus, buses and minibus stations.

The project is located on the European side of Istanbul in Kucukcekmece, Sefakoy area, which is one of the most central districts of Istanbul.

The distinctive project location close to the main road E5.

The metrobus connecting the Asian area of Kadikoy with the European area of Beylikduzu, is located near the project.

Project Site

There is a connected metro line connecting the city with each other from the Yenikapi area to the Safakoy area, and the project is located near the largest botanical park and museum (formerly Ataturk Airport).

Kucukcekmece is characterized by the presence of one of the most beautiful lakes in Istanbul.

Kucukcekmece district is unique with its location near the main roads in Istanbul, and major areas such as Florya, Basaksehir and Beylikduzu.

Kucukcekmece is characterized by the availability of main services, public transportation, and its proximity to the city center.
