Project

Overview

Project area
313.500 M²

With this project, add inspiration to your life.

Throughout the projects it has developed, IŞ Real Estate Investments continues to raise standards to the highest level in the real estate sector.

As an inspiring mixed-use development, this project adds value to the area as well as providing a flawless living space in every aspect with stunning views.

Project

Overview

The project is in Kartal, the most promising area of Istanbul.

The construction area of the project is 313.500 square meters, and the number of housing units in the project is 975 units.

The project is located only 1.5 km from the sea and consists of five towers: three residential towers and two office towers.

Moreover, its unrivaled commercial districts and central location within the transportation network places Kartal as a magnet for housing and investment.

The project includes many luxurious amenities, such as an outdoor swimming pool, children's pool, fitness center, spa area, hobby rooms, kids club, walking paths and a multi-purpose sports complex. The area of the recreational facilities area is about 2.500 square meters.

Project Overview

The project is designed so that residents can enjoy the amenities of an enjoyable and safe lifestyle without worries, including round-the-clock private security, indoor car parking and a storage space of 3 meters for each housing unit.

In addition to the pleasant living areas, the project has two office tower areas with an area of approximately 46.000 square meters.

As well as the dining space that has restaurants, cafes and supermarkets that will meet a variety of needs, and access to the shopping areas as well, the project provides ready-to-let spaces that will host the elite of local and international companies, making this project a mixed-use development.

Project Overview

Kartal's vision is becoming more prominent thanks to the metro project. Besides, Kartal became more integrated with the European side of the city upon completion of the Marmaray project, a rail transportation project.

In addition to lush greenery and resort areas, Kartal adds incredible value to investments as well as to quality of life.

Project Site

Kartal area borders Pendik and Tuzla areas to the east, Sultanbeyli to the north, and Maltepe to the west.

Kartal is located at the hub of E5 highway, metro, and marine transportation, only 19 minutes' drive from Sabiha Gokcen International Airport.

The project draws attention with its easy access and proximity to the important points of the city. It makes your life flow much easier with its proximity to shopping malls, hospitals, Sabiha Gokcen Airport, and universities.

The project located in Kartal, one of the most valuable settlement and trade centers of Istanbul with its dazzling location overlooking the islands.

Project Site

The project's distinctive location near highways, metro, and public transportation, which has earned it a high value and great importance in the area.

You will be able to get anywhere you want to go between cities or within the city easily with unlimited transportation alternatives available at your doorstep. The project is distinguished by its location on the minibus route in the middle of the E5 motorway and the coastal road.

In this project, you will be in an area where transportation alternatives such as Marmaray, high-speed train line and metro intersect, and you will get rid of the transportation problem.

Your dream home is waiting for you within walking distance to important places like schools, hospitals, banks, and pharmacies, you will not waste time to reach public transportation and you will feel the comfort of life at every moment.
