Project Overview

Project area
20.715.16 M²

The project consists of 4 building blocks. The building blocks consist of 37, 36, 29 and 4 floors.

There are social facilities, market area, 24-hour reception and security service, indoor parking lot and housing unit concepts ranging from 1+1 to 5+1.

843 housing units - 53 commercial area | a total of 896 independent sections.

Parcel Area of 20.715,16 square meters.

Project Site

The project is located in Halkapınar Neighborhood in Konak District, where the connection between the Old City Center (Kemeraltı-Çankaya-Akdeniz) and the New City Center (Salhane-Çınarlı) will be made.

The region has an interactivity with Alsancak Port and the back area of the port and has characteristics of a transit region of great importance in the city center.

The area used as a storage area for years, is currently exposed to transformation into a “Housing Unit - Shopping Mall - Office Premises” due to the pressure of development in the city. It will be possible to have a sea view at 7th floor and higher floors of towers.

A total of 492 housing units (58%) are anticipated to have sea views.
