## Project Overview

Project area  
**6.200** M<sup>2</sup>

It is a residential and commercial project that was built on an area of 6200 square meters in Kagithane area on the European side of Istanbul

The project has been built and constructed by a company that aims to add innovation to the understanding of housing with its "New Generation Urban Life Concept".

The project is not just a residential project, but a living platform. Consisting of a total of 205 residences and office units, 60% of the project is dedicated to communal areas and landscaping, and 29% to business and commercial spaces.

## Project

# Overview

The flexible layout of the 1+1.5 and 2+2.5 residential units enable transforming spaces for different purposes, giving the residents utmost freedom in designing their homes.

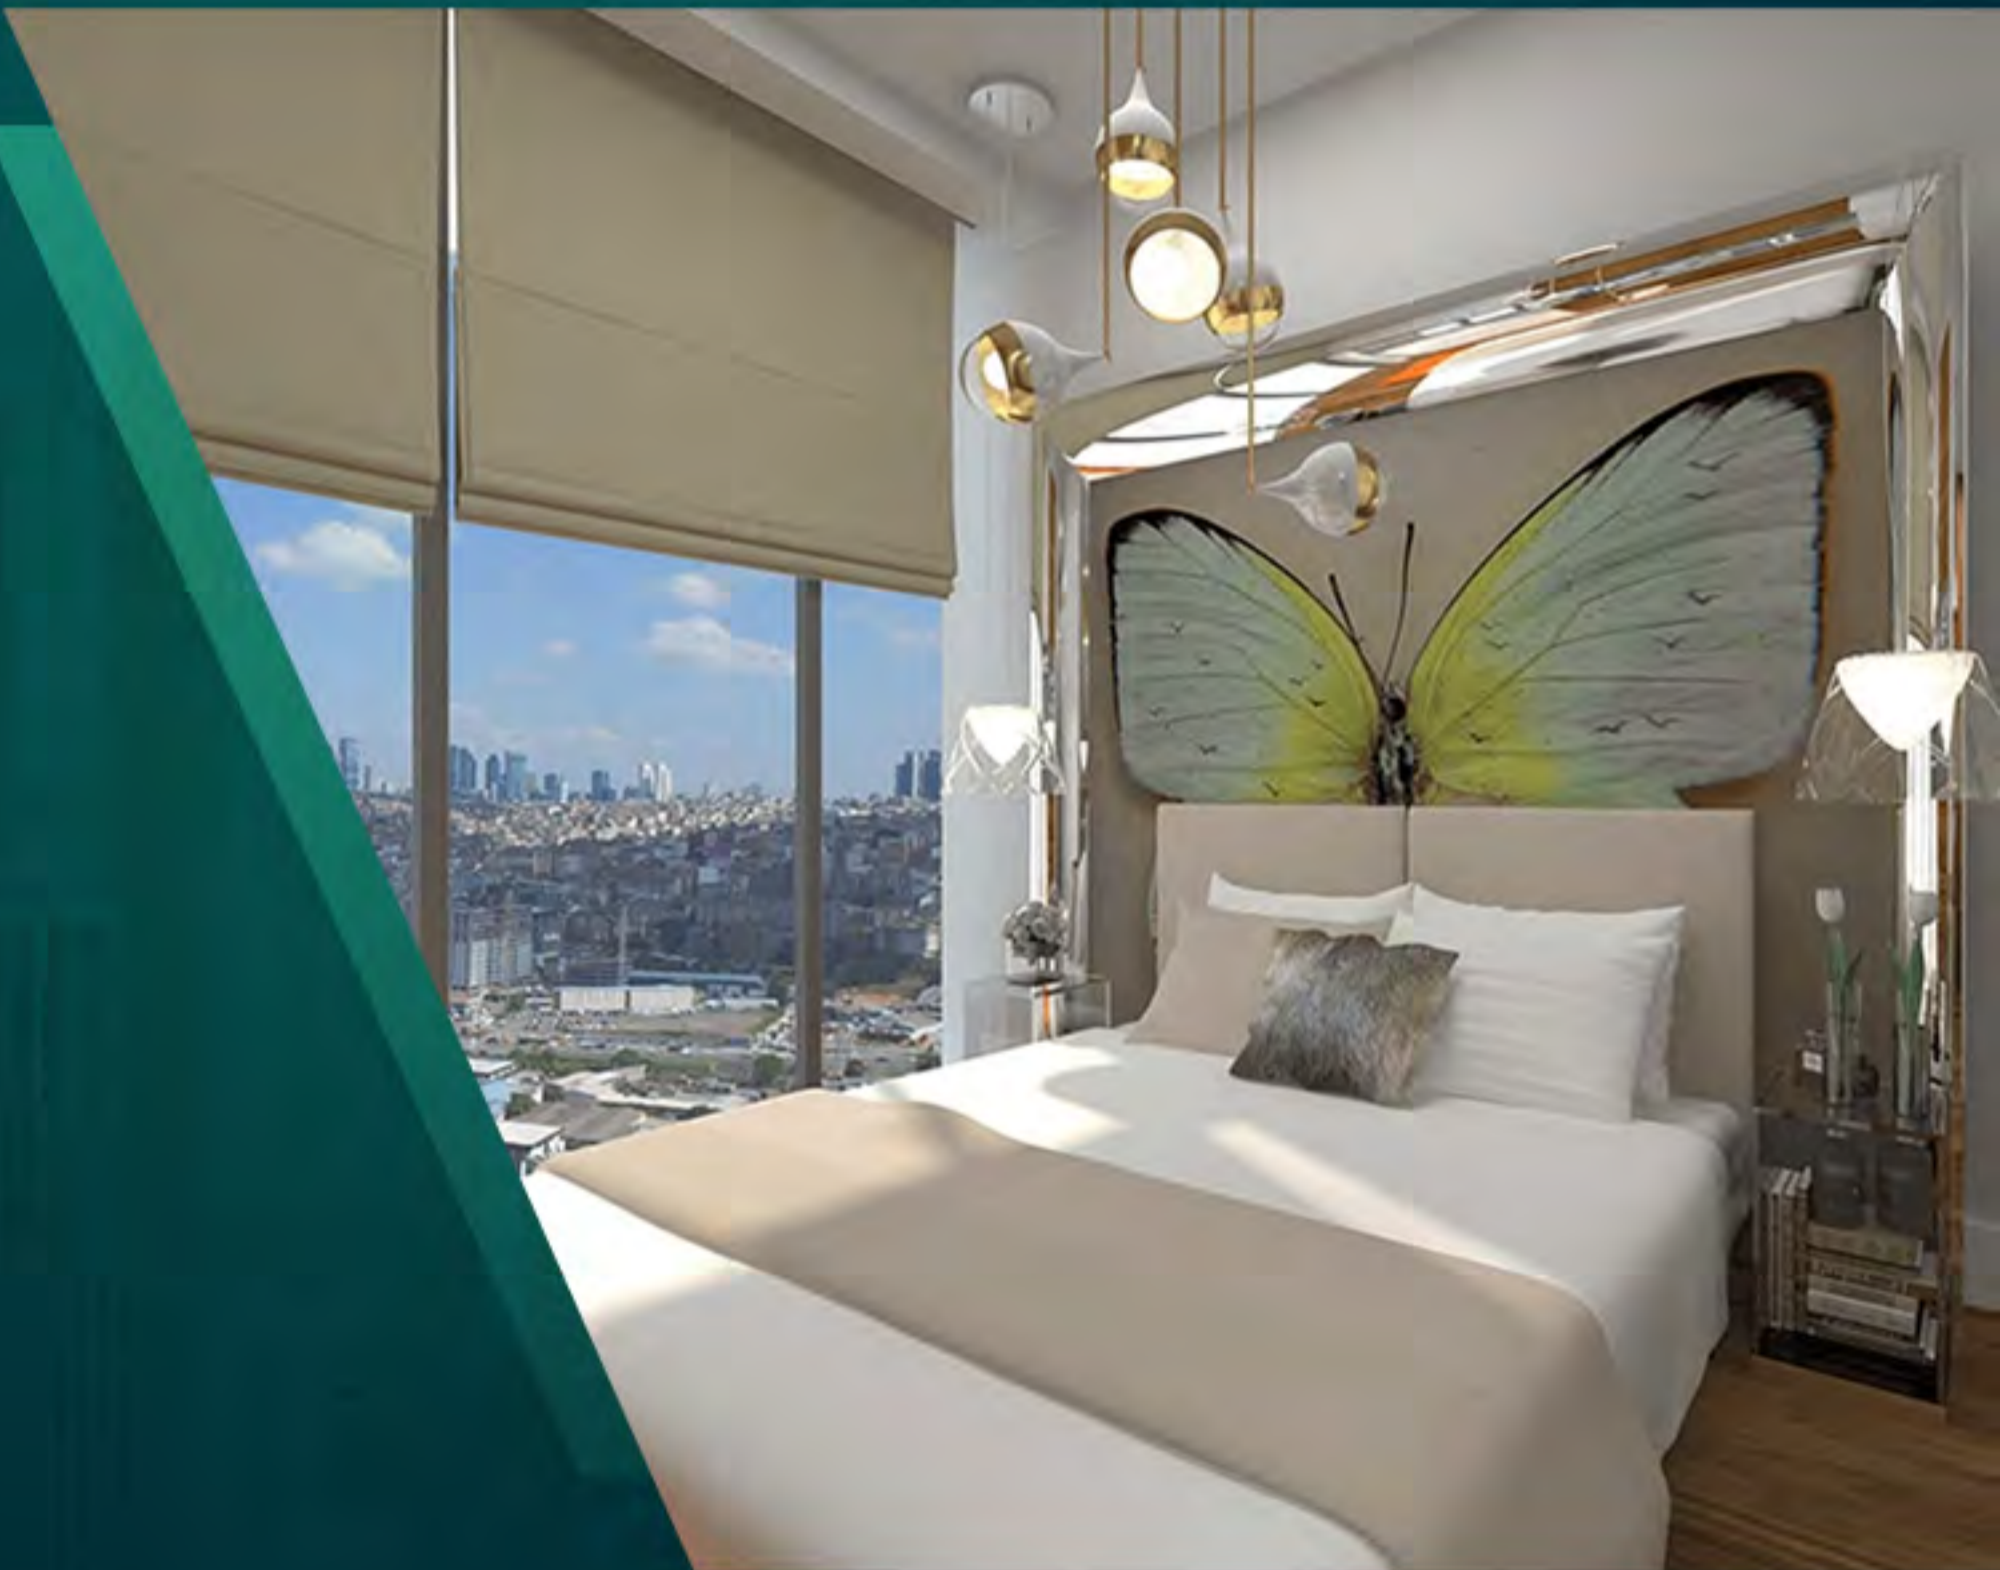

The project is a single building consisting of 10 floors above the ground and 5 floors underground, and all of these floors have wonderful views, because the project was built on a hill and thus you will notice a lot of artistic touches in the architecture that the project was designed according to.

The project includes 205 residential units, 21 offices, and 11 commercial units.

60% of the project area is allocated to gardens, green spaces and social facilities.

The closest apartments to the center of Istanbul with affordable prices are waiting for you in this project.

Located in the very heart of Istanbul, those brand new properties are suitable for housing and investment.

## Project

# Overview

Fully equipped project with social facilities that ensure you and your family and loved ones enjoying your time while staying at your home.

The project offers apartment options ranging from 1+1.5 to 2+1.5 with a dedicated terrace for each apartment.

Apartment areas range from 58 to 85 square meters.

This project includes many advantages that you do not find in many other projects, such as: a meeting room in which you can hold your meetings with businessmen, also there is a special library for the project residents and a games room for children, and in addition there is a music room and a shared large kitchen, conference room, art room and coffee shop. It is worth noting that all the existing equipment is from Samsung.

## Project Site

The project is located on the European side of Istanbul in Kagithane, one of the fastest-growing areas in the city.

The project is conveniently located on Kagithane Avenue, which connects Kagithane to the TEM Highway, and is within walking distance to the central metro station.

Kagithane is one of the most important areas that attract real estate investors due to its central location in the heart of Istanbul.

Kagithane is located near Taksim Square and Levent and it is also close to shopping centers, the highways, and Istanbul's third airport. Kagithane is characterized by the availability of main services and the availability of public transportation.

The project located in the heart of Istanbul, where a commercial, educational, and social life are close to you.

It is located near the Bosphorus bridge and main arteries in the city. The project located in an urban transformation area in Kagithane, with walking distance to the educational and health institution and
