Project

Overview

This project is a unique residential and investment project in the area. The project is built on a land area of 14.000 square meters, 70% of which are green spaces and social facilities.

Project

Overview

The project consists of 7 buildings, each building divided into 3 blocks, containing many options for apartments, including 2+1, 3+1, 4+2 and 5+2.

There are many means of transportation in the area, and work is being done to lengthen the Metrobus line so that it passes in front of the project completely, and this leads to the project and the area being a real investment target.

Project

Site

The project is located in Buyukcekmece, on the European side of Istanbul. Buyukcekmece is close to important areas in Istanbul such as Beylikduzu and Bahcesehir, in addition to its proximity to the city's main roads.

Project Site

Buyukcekmece is a lively and fully serviced residential area with public transportation.

The project is located in Buyukcekmece, or as the people of the area call it MUTLULUK ŐEHİR (City of Happiness) because of the ideal life that the residents of this area live.
