Project Site

What distinguishes this project is the location in the heart of the city, with rapidly increasing values.

The project comes to life in Topkapı, the historical heart of Istanbul.

Surrounded by hospitals, schools, business and lifestyle centres, its unique location is convenient for all modes of public transport.

With direct access to the highway, it is also just a 10-minute walk from the metro, metrobus, tram and Marmaray stations.

With its proximity to Zeytinburnu coast and excellent communications, the location is becoming ever more valuable.

Embracing the historical peninsula on the one hand, and universities, hospitals and transportation networks on the other, it is one of the most prestigious developments in the city.
