# Overview

You'll find a detail of quality in every square meter and a specialty in every detail making your life luxurious, from your kitchen to bathroom, from your living room to bedroom.

Your life will be easier in this project, as it is presenting a secure living environment in its apartments equipped with the smart home system.

Not an ordinary facade, it's a modern architecture. This project with its aesthetic wood look exterior cladding reminds you of the nature. It appeals to your taste and makes elegance a part of your life.

Instead of being bound to artificial ventilation systems, get fresh air into your house through functional windows in a natural way.

While viewing the panoramic city scenery in front of you from your balcony, don't miss sipping your cup of steaming coffee.

## Project

# Overview

When spending time in resting parts of landscaped areas, feel deep in you the peace emanating from earth, trees, and flowers.

Standing out with its green zones and landscaping, the project provides you with both taking a break for fresh air and working out in the city park close by.

We have expanded your change of working out both indoor and outdoor to four seasons in swimming pool with coverable ceiling, basketball field, and fitness center.

Here, you may cater your daily needs at the shops right under your apartment and have moments of pleasure away from any disturbance in coffee shops and restaurants.

## Project Site

The project located on the European side of Istanbul, in Gunesli neighborhood on Bagcilar district.

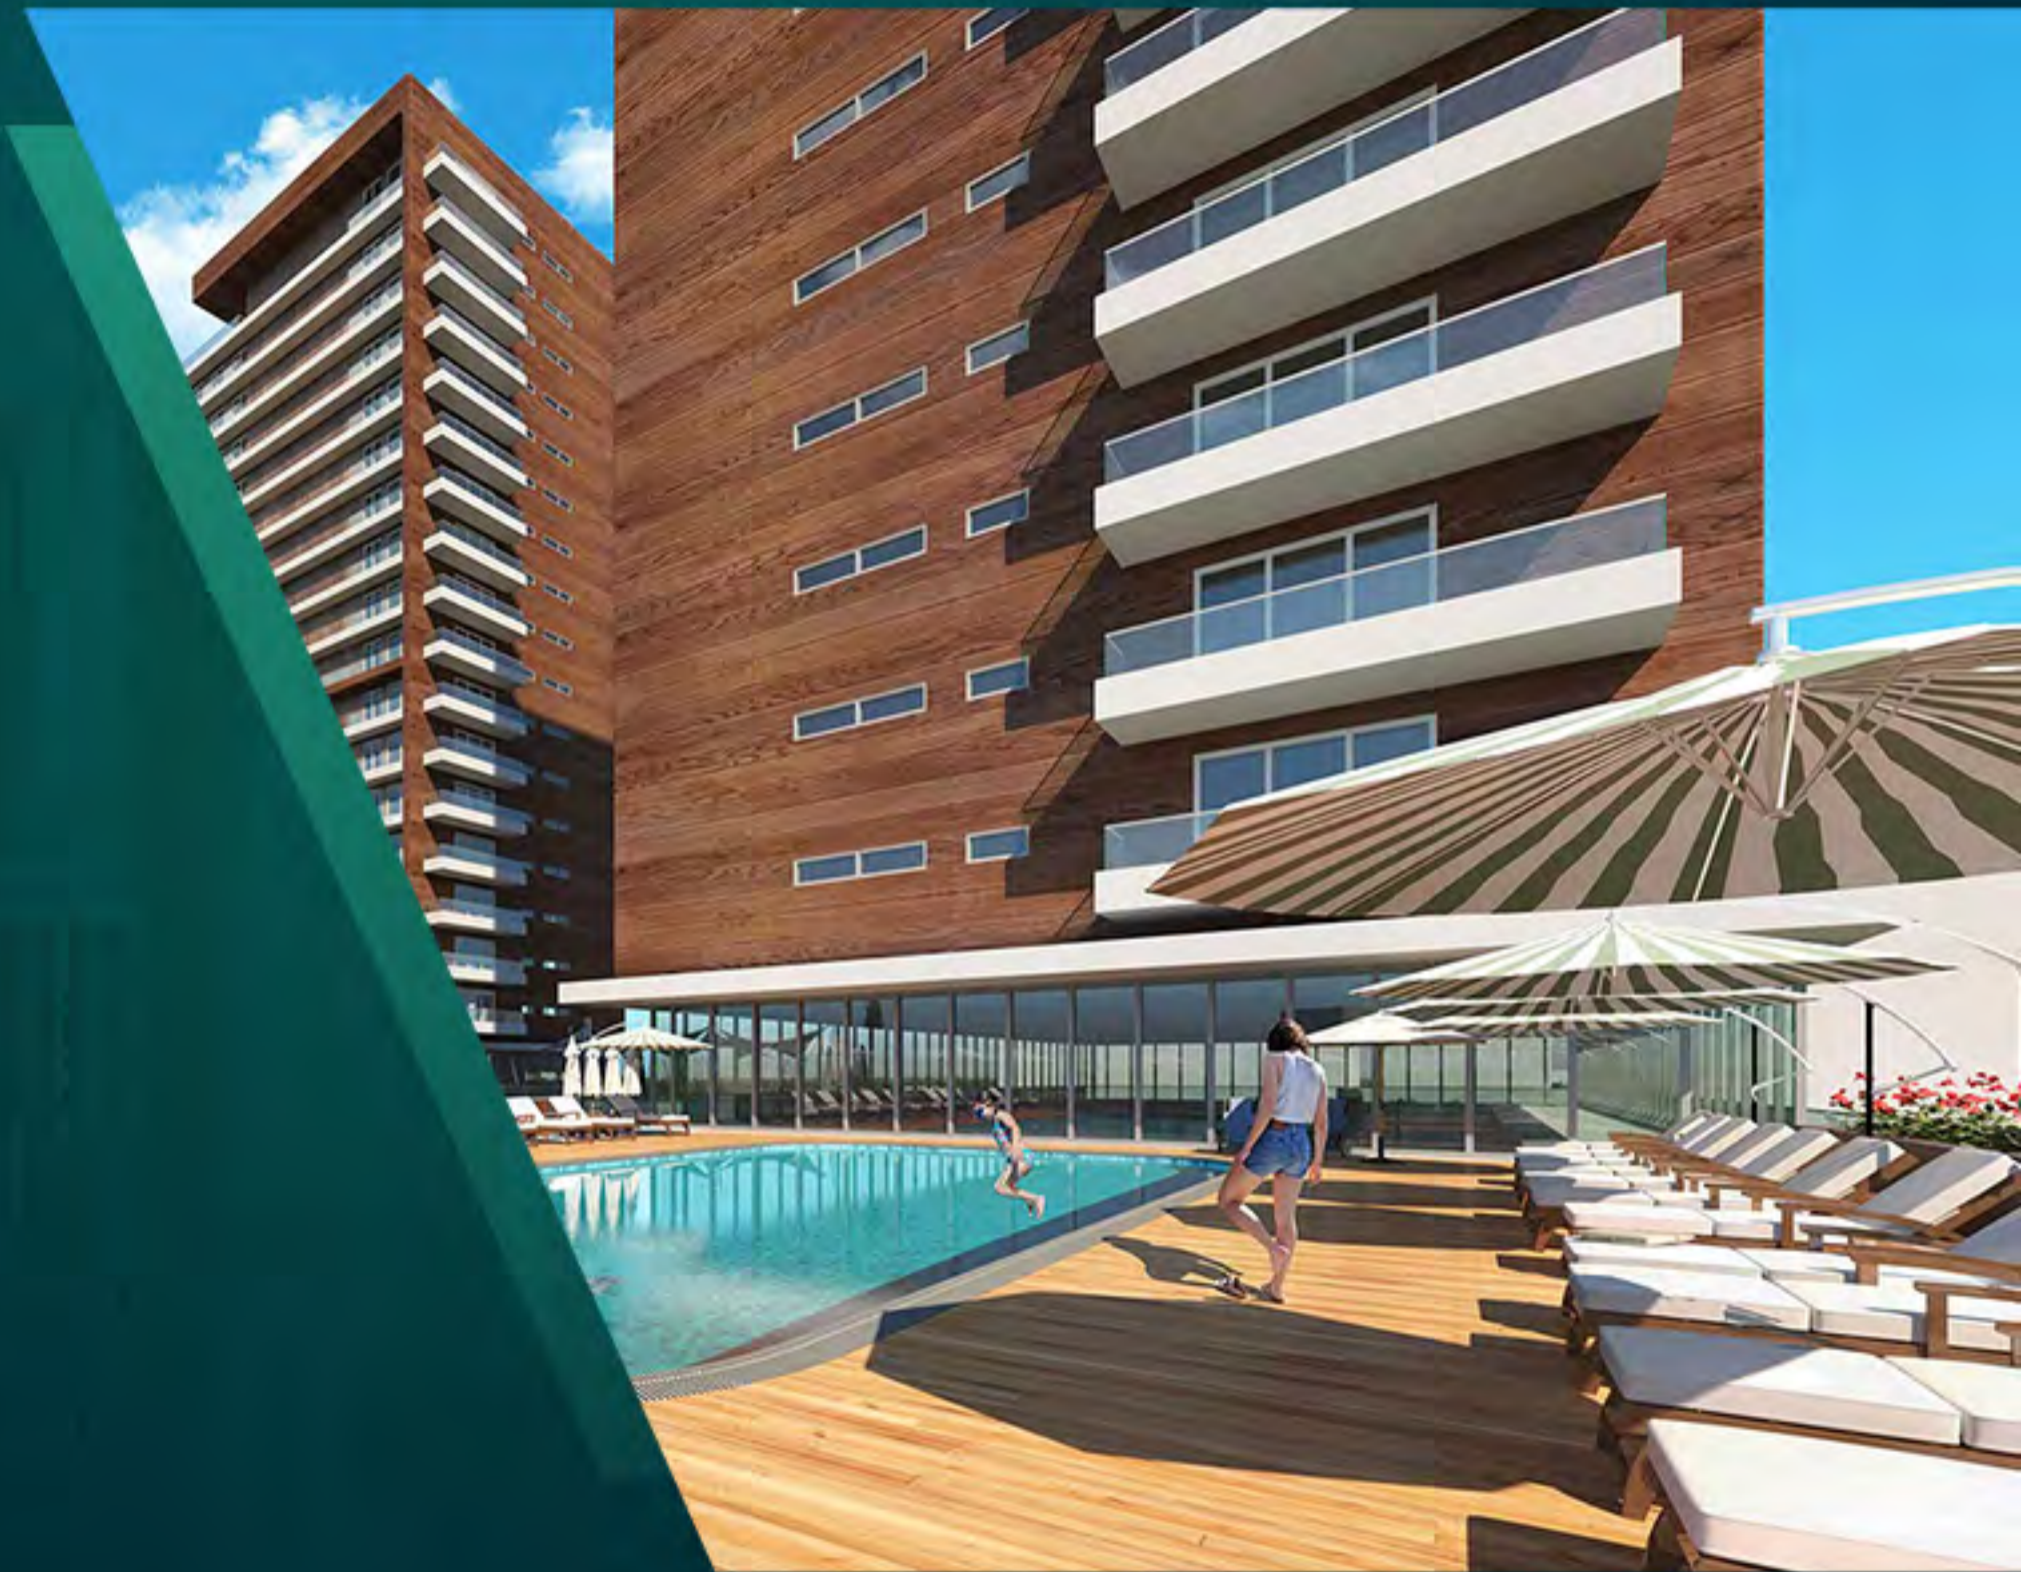

The distinctive location of the project near to Basin Ekspres main road and the essential services.

The project constructed at an easy access point to TEM Motorway, E5 Highway and the airport.

Rising up in Gunesli described as a prestigious service area and pivotal business location, the project will make you gain more every passing day with its location very close to Ataturk Airport, the 3rd Airport, and the congress centers.

Your apartment will be next to the regional park station of the Mahmutbey-Esenyurt subway line, and only 70 meters to the İstoç station of Bagcilar Olympic Village subway line.

Besides connecting you to Istanbul with its closeness to the highway, the project protects you from traffic noise with its location just right the highway.
