Project Overview

Project area
26.000 M²

A distinctive residential and investment project on the European side of Istanbul in an integrated residential neighborhood.

The construction and building of the project was supervised by a well-known real estate development company in Turkey.

The project was built on an area of 26.000 square meters, and it consists of 4 buildings containing 609 apartments ranging in size from 1+1 to 4+1, in addition to a shopping center containing 60 commercial units.

Project Overview

The project was designed by a multi-award winning architectural design team locally and internationally.

The apartments within the project are perfectly planned with meticulous details that provide distinctive panoramic views of each apartment. Green spaces and landscaping make up 85% of the project's total area.

The project was established on the basis of the concept of a happy and quiet family life with convenient transportation, and the project also provides great investment opportunities.

A child-friendly project with indoor facilities of 1000 square meters for a life full of entertainment, activities and interesting hobbies for children.

There is also a private school (kindergarten, primary school, secondary school) consisting of 27 classrooms, within the project.

The project includes swimming pools for adults and children, a gym, a Turkish bath, a sauna, a café and other social facilities that guarantee you happy times with your families.

These investment apartments promise profits as they are located in a highly desirable area for living in Istanbul.

Project Site

The project is located in the developed and modern side of Esenyurt district on the European side of Istanbul.

The strategic location of the project is close to the TEM highway that connects Beylikduzu and Bahcesehir districts, and it is considered one of the most suitable areas for housing in Istanbul.

The project is characterized by its proximity to the highways and the metrobus, and it is located in an integrated area with services that meet your needs and facilitate your life.

The ideal location of the project ensures easy access to public facilities and basic services such as metrobus, airport and metro.

The project is 10-15 minutes away from hospitals, schools, universities and shopping centers.

Torium Mall and Marmara Park Mall, the largest and most famous shopping malls in Esenyurt and Beylikduzu, are only 10 minutes away from the project.

There are gardens and parks in the area surrounding the project, and there are government and private hospitals, schools, universities and educational centers.
