## Project Overview

Project area  
**22.000** M<sup>2</sup>

This project took its place among Istanbul house projects.

Realized in Silivri, the project allows investors to make a profitable investment with the houses for sale.

At the same time, green areas are given great importance in the project, which has a very large land area.

## Project Overview

You will find the right house for your needs in the project, which will reveal its difference in Silivri with its different housing types, wide living spaces and social facilities.

The project, which will shape the construction sector with its aesthetic design line and functional products, is also frequently mentioned among the campaigned housing projects with its affordable payment terms.

The project is being built in Silivri on the European side of Istanbul.

The project draws attention with its understanding of "design that does not compromise on comfort" among home projects.

## Project Overview

Answering all the needs of living spaces under one roof, this project is the preference of investors in terms of both the comfort they offer and the dominance of a certain style throughout the house.

The project, which has a total land area of 22.000 square meters, includes 15.000 square meters of landscaping and green areas.

Consisting of 16 blocks, the project is designed as 14 blocks of 2+1 and 2 blocks of 3+1.

There are 15 commercial units in the project, which includes 388 residences.
