Project Overview

Project area
18.472 M²

This project represents the new residential center of Beylikduzu district.

The project is located directly on the main street in Istanbul E5, which is the main artery for the most important transportation movement in Istanbul, which is the Metrobus that connects the European part of the city with the Asian part of it.

Project Overview

Investors will enjoy a luxurious residential life in this project, which will be built on an area of 18.472 square meters.

The project includes 850 housing units and more than 100 shops under the project to serve the surrounding area and the residential complex.

The project consists of 3 buildings, the first consisting of 33 floors, the second consisting of 37 floors, and the third, a commercial building consisting of 30 floors.

The project offers apartment options of 1 bedroom, 2 bedrooms and 3 bedrooms apartments with sea views and wonderful views of the city.

The project is characterized by providing very high-quality internal services, including the indoor swimming pool, gym, sauna, and Turkish bath.

Project Overview

This project is considered unique, as it offers high quality finishes in a strategic location in Beylikduzu. The project provides a flexible payment plan for investors, the first payment is 35% and the rest is installments over 40 months.

This project is considered unique, as it offers high quality finishes in a strategic location in Beylikduzu. The project provides a flexible payment plan for investors, the first payment is 35% and the rest is installments over 40 months.

Project Site
