AREA

BEYLIKDUZU

## Project Overview

Each building  
over than  
**15.000** M<sup>2</sup>

The project consists of 9 blocks with sizes varying between 1500 and 1800 square meters. In this project, blocks are designed so each gets the same scenery and sunlight, sitting close to one another but at an appropriate distance that respects the residents' privacy. All areas in the project, which has been shaped in accordance with user requests and needs, are naturally vented and receive direct sunlight.

## Project Site

The project located on the European side of Istanbul, on the Beylikduzu area, near Yakuplu Beach.

The project is easily accessible by car and public transportations. The project promises a comfortable life for its residents that it is close to main roads, E5 and TEM Highway bridges, and airports, and it is easily accessible by public transportation.

The special location of the project near to Istanbul West Marina and the coast of the Marmara Sea.
