## Advantages of The Project

Project area  
**46.800** M<sup>2</sup>

- Half of the project area is designated for green space and gardens and therefore it is a natural outlet by itself
- Quietness and purity is the most characteristic of Bahsht Sahir region in Istanbul, therefore it is considered to be one of the most demanding sites for housing or work in Istanbul, which also has a high investment return for those wishing to invest for the same reason
- Accommodation and work in one place in addition to the wonderful architectural designs and modern finishing. Most importantly, great devoted care by public services to the infrastructure and entertainment is what distinguishes this new place

## Project

# Site

- ✓ In Istanbul, European part, and especially in the city of Bahsht Sahir, this project is constructed on a total area of 46800 m2. It consists of three phases, phases I and II for housing and phase III for offices. The total number of towers is 9, comprising 780 apartments and 231 offices.
- ✓ Particular care was given to the gardens and green spaces in this project. 23,000 m2 were allocated for this purpose, and recreational activities were also given the attention they deserve. Three swimming pools have been dedicated where men's swimming pools are separated from women's pools.
- ✓ Many supermarkets, restaurants, boutiques and entertainment are all designed to meet your needs from the same place where you live. If you are admiring shopping in the big malls, then the famous Alak mall is just at walking distance away
- ✓ The project is two minutes away from the TEM motorway and 5 minutes from the E5 motorway. The first route makes it easy for you to reach the third Istanbul Bridge, and anywhere in the central part of Istanbul, including education, health and commercial centers
- ✓ The second route E5 has the most important public transport in Istanbul, the Meitarbus line  
And the new metro station, which will be built in a famous area will be close to this project and therefore there will be no problem with your mobility  
The largest new airport in the world is just 20 minutes apart from the place, and the famous Marmara Park Mall is just 12 minutes away, and access to the city center will not take more than 40 minutes.
- ✓ Esenyurt University will be very close to you. If you will be in need - God forbid- medical care; Esniort Hospital is just 10 minutes away, as well, Medkana and Medelij Hospital in Belek Dozo.

# Project's Features

Garden

Sauna

Security

Parking

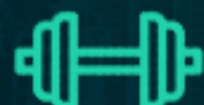

Children's  
Playground

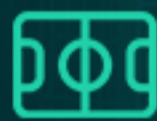

Swimming  
Pool

Restaurant  
and Cafe

Gym

Play-  
grounds
