BAKIRKOY

Project Overview

Project area
40.000 M²

The project built on a total area of 40.000 Sqm and a majority of it, namely 31.000 Sqm full of both natural and historical beauty, has been set aside for breathtaking, uniquely designed landscapes.

The project consists of 10 blocks that contain 125 residence units ranging from 1+1 to 6+1, in addition to 23 commercial areas.

Project

Overview

The project offers residential units with areas between 63 Sqm and 348 Sqm.

In every aspect, this is one of the most unique projects ever launched in Istanbul, one of the most fabulous cities of the world, and it offers global value not just as a living space but also as an investment.

The project, which boasts interior designs of world-famous architects, presents a luxurious life with the use of world-class, top-quality materials and select craftsmanship focusing on every detail.

The fitness center furnished with state-of-the-art equipment and studio classes formed with the most popular sports trends will help you to start the day with renewed energy.

You may reward yourself by taking a walk or jogging on the 30-kilometer area along the coast road right in front of the project or with a pleasant biking tour, or the relaxing effects of the water at the indoor swimming pool with direct sunlight, traditional Turkish bath, SPA and steam room.

Project Overview

The Project will set a global example in fields such as proper restoration of historical buildings, erecting new structures in the city with a contemporary architectural approach and building with a sustainable design approach and it is designed precisely by taking into account features such as respecting the history and relationships with ancient monuments.

The new glass facade buildings have a contemporary and low-rise architectural and building style, the historical buildings are completely restored and transformed into modern living spaces.

Besides the historical fabric, there is the beautiful blues and greens of Marmara area that add to the natural richness of the landscape.

The project opens to the real Istanbul from the Golden Gate, offering an extremely unique life and invaluable investment opportunity with its 558-meter facade overlooking the coast road along Kennedy Avenue and marina connection right in front.

Project Site

In this project, you don't have to worry about transportation in any way, in which it offers an easy access to different transportation options.

In this project, you will be in the heart of Istanbul and yet away from its chaos.

The project located in Bakirkoy neighborhood that includes shopping mall, hospital and it is close proximity to Florya and Fatih districts.

The project is located in a central district with easy access to locations all around Istanbul and it is situated right at the heart of life with an extensive transportation network including alternatives such as sea, land and mass transportation as well as nearby educational institutions, hospitals and shopping malls.

A privileged life right at the heart of real Istanbul that is within walking distance of the enchanting beauty of the Historical Peninsula and located on maritime and land transportation lines.
