## Project Overview

This project was designed for those who want to have a prestigious and comfortable living space that will be considered modern even after 50 years.

Functional and aesthetic interiors were designed by considering the standards of the modern age.

## Project

# Overview

Living room, bedroom, children's room, kitchen, bathroom... every square meter of your house has been thought out to the smallest detail.

Different types of flats for large families, and useful flats to attract small families. Flats that appeal to every budget and lifestyle are included in this project.

Istanbul is getting a dazzling magnificent structure. Imagine a perfect living space, fascinate you with its magnificence, gain value constantly, mediate the revaluation and definition of its location.

The project, with its architecture and prestige, has the quality and brand value that will enable the redefinition of the most popular and peaceful neighborhood of Kucukcekmece.

It is a unique project that promises comfort and peace to families and gains to investors.

## Project

# Overview

This magnificent project, which will add prestige to Kucukcekmece, sheds light on the future of the region.

The project, which has an aesthetic exterior in a magnificent location where all shades of green and blue meet, offers you a life beyond your expectations with its location, social facilities and proximity to many different points that will make your life easier.

The project opens the doors of a practical and peaceful life to you with its unique landscape areas and the advantage of magnificent location.

In this project, which has a modern and assertive exterior, you can watch the sunrise and sunset from your flat with a large balcony, unique landscape, and lake view, have a sports or picnic by the lake or have a good time in the camellia by the pool without getting too far from your home.

## Project

# Overview

The project is rising in the heart of Istanbul, you will have a unique living space that you have dreamed of for years.

There are a total of 201 flats consisting of 2+1 and 3+1 flats in the project, which consists of 3 blocks.

Landscape areas designed in accordance with modern architecture, on the other hand, have opportunities such as camellias, ornamental pools, and playgrounds, where you and your children can spend time with pleasure.

## Project Site

The project is located in Kucukcekmece area, in a prestigious and well-known area surrounded by transportation networks.

The project is located in the center of Istanbul and is very close to highways, Ataturk International Airport, hospitals, shopping malls, universities and five-star hotels.

The E5 highway is very close to you and the TEM road too.

It is in an ideal location accessible from all directions, whether by public transport or by car.

The project is located in the new center of Istanbul that was established in the north exactly on the axis of the planned development of Istanbul.

## Project Site

The third airport, the roads to connect the third bridge, and the metro stations, were built near the project.

New Istanbul Canal, the largest project in Istanbul, is being built around the project area.

The project is completely located in the middle of a dream world with Health City, Olympic Stadium and many shopping centers around it.
